

SCIENCE SEMINAR

Thursday, January 31 - Carson Taylor Hall room 322

Neal Blackman

Physics Engineering Doctoral Candidate, Louisiana Tech University

presenting

"The Art & Science of Photography"

From the basics of selecting a camera to advanced photography techniques, Neal will give a quick overview of how science can be applied to create beautiful images.

There will be a brief review of photography fundamentals and camera settings followed by discussion of example photographs taken by Neal. A wide range of photography genres will be covered with an emphasis on astrophotography, macrophotography, and nature and wildlife photography.

Come at 3:30pm for refreshments, speaker at 4:00pm
