Academic Director, Mathematics & Statistics and Online Programs
Director, Integrated STEM Education Research Center (ISERC)
Entergy Corp LP&L/NOPSI #3 & #4 Professor of Mathematics

“Women in STEM: Overcoming Discrimination, Bias, and Stereotype Threat”

Despite the national level emphasis on the inclusion of women in STEM and the continued growth in STEM career sectors, the participation by women in these fields has remained relatively flat. This presentation will explore some of the social constructs that may help explain the disconnect.

Come at 3:30pm for refreshments, speaker at 4:00pm
