This Dissertation is brought to you for free and open access by the Graduate School at Louisiana Tech Digital Commons. It has been accepted for inclusion in Doctoral Dissertations by an authorized administrator of Louisiana Tech Digital Commons. For more information, please contact digitalcommons@latech.edu.

LOUISIANA TECH UNIVERSITY

GRADUATE SCHOOL

July 3, 2019

Date of dissertation defense

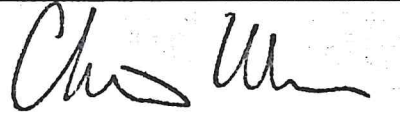

We hereby recommend that the dissertation prepared by

Alexander Ulrich

entitled **Increasing the functionality of additive manufacturing through atmospheric microplasma and nanotechnology**

be accepted in partial fulfillment of the requirements for the degree of

Doctor of Philosophy in Molecular Sciences and Nanotechnology

Dr. Chester Wilson, Supervisor of Dissertation Research

Dr. Gergana G. Nestorova,
Head of Molecular Sciences and Nanotechnology

Members of the Doctoral Committee:

Dr. Arden Moore
Dr. Dentcho Genov
Dr. Leland Weiss
Dr. B. Ramu Ramachandran

Approved:

Hisham Hegab
Dean of Engineering & Science

Approved:

Ramu Ramachandran
Dean of the Graduate School
